MEMORARMA FOR: DEFINY DIRECTOR FOR INTELLIGENCE

THE JUINT STAFF

JOINT CHIEFS OF STAFF

SUBJECT:

MATO Intellimence Procedure

REPERT IN .:

- (a) Memorandum for Participating IAC Agencies from the U. S. Member Standing Group Intelligence Committee dated 15 January 1951
- 1. The Central Intelligence Agency concurs in the proposals put forward in Reference (a) and believes that the procedure for forwarding an interim estimate to SMAPS is sound under the present circumstances which demand immediate intelligence guidence for that Headquarters.
- 2. On the other hand the Central Intelligence Agency, without minimising the difficulties which will be encountered in obtaining the assent of all the NATO National Staffs, strongly urges the speedy development of the intelligence planned for the guidance of the Standing Group. This, the Central Intelligence Agency believes, should be based on me broad a concurrence as possible vithout prejudice to its value as intelligence.
- 3. The Central Intelligence Agency believes moreover that the interim estimate as a statement of Soviet capabilities, covers the ground adequately and contains nothing inconsistent with existing Mational Intelligence Estimates. The exploration of factors affecting Soviet intentions appears somewhat inadequate but this no doubt is due to the fact that the paper represents an attempt to reconcile various national viewpoints.
